Progress for people and our planet

We’re always looking for ways to improve how we operate to reduce impact, and help our suppliers and partners do the same. Our corporate social responsibility focus starts with promoting safe, fair and respectful conditions across the chain. We set clear standards, report transparently and own outcomes, while enabling partners with practical education, tools and hands-on support.

Sustainability is built into our daily operations, not just materials. Aligned with ESG principles and evolving EU requirements, we’re making it easier to order with clarity and confidence. We also support suppliers in adopting requirements ahead of deadlines to elevate standards across the supply chain and build a transparent, accountable ecosystem.
